

Boxter

In addition to its functional purpose to store the control gear, the asymmetry of this fixture facilitates a linear installation, providing direction and elegance to the room.

Incl. Dimmable LED Power Supply.

This fixture won the Product Design Award 2013 and RedDot Design Award 2013.

Manufactured in Belgium and hand made, this company began in 1987 during a ground breaking time for lighting technology and superseded the industry's expectations. Their continuous search for perfection and innovation is seen in their light fixtures. As a continued winner of numerous design awards and publications, they are the gold standard in product design.
