

## Komori

This chandelier is reminiscent of a colony of bats hanging upside down. Evenly spaced glass shades blown by Murano glass artisans enclose LEDs, and cast their light downwards. Bases can be connected to create a large colony, or removed to make a smaller one. Customizable combinations available.

Designed by Nendo

Japanese design and manufactured in Murano.

This lighting company, established in London and inspired by Venetian glass blowing, present installations by Nao Tamura, Zaha Hadid, etc.

Shade Finishes:  
Blown Glass in Grey or Black
