

CHAINDELIER

A play on words between “chain” and “chandelier”. ChainDelier is a golden chain that bends under its own weight, creating a perfect parabola and projecting light from its bottommost point. Gold is the ultimate metal. It is a metaphor of energy and desire. It is also the ideal metal to conduct electricity. ChainDelier can be whatever the user wants it to be, inserting more chains and/or lighting devices, with the lights facing up or down. The number of lighting combinations makes this lamp truly unique. ChainDelier is available with large rectangular ceiling rose (ChainDelier 1) or smaller round ceiling rose (ChainDelier 2).
