

HOLLOW

Hand blown glass attached to a crafted polyurethane ring with a dimmable LED system. This design interprets a dialogue between natural elements, traditional design and technology.

Design by: Dan Yeffet

HOLLOW

by Dan Yeffet, 2016

Light architecture or a glass sculpture - Hollow makes light its object. Hollow embodies a new concept of a floor lamp, unlike the traditional light that serves to light other objects, it demands to take centre stage commanding the space it occupies. Hollow is as majestic when it is turned off as it is when turned on.

MANUFACTURING TECHNIQUE

Blown Glass
